

INITIATION OF ENERGY COMMUNITIES UNDER THE CONGREGATE PROJECT

Dragomir Tzanev
Center for Energy Efficiency EnEffect

OBJECTIVE OF THE PROJECT

Enable and motivate municipalities to develop **public-private partnerships** in order to increase the share of renewable energy in the local energy mixes

- ❑ **National models** for systematic multi-level communication and an engagement campaign in support of building renovation are developed.
- ❑ **Policy recommendations** and **feasibility studies** for renewable energy cooperatives are developed

Support the implementation of national **long-term renovation strategies**

- ❑ **Sociological surveys** for the attitudes of the homeowners towards the renovation programmes
- ❑ **Technical measurements** for studying the impact on renovation on consumption and IEQ
- ❑ **National communication strategies** in support of the renovation programmes

PROJECT ACTIVITIES

Promoted communication **model** on **deep energy renovation** to be exploited by national, regional and local authorities and community

Promoted solutions and recommendations for **establishment of public-private renewable energy cooperatives**

Developed set of **technical and socio-economic surveys** in support of **building renovation**

Developed **set of solutions for renewable energy cooperatives**

Supported by:

based on a decision of the German Bundestag

THANK YOU FOR YOUR ATTENTION!
